MEMORANDUM FOR: Assistant for Plans and Development, NPIC

ATTENTION : [REDACTED]

SUBJECT : Advanced Data Bulletin [REDACTED]

1. During a recent discussion between [REDACTED]  
[REDACTED] of PAG, a new piece of proposed  
equipment was mentioned that has created interest in the  
Geographic Military Division, PAG. This instrument is the  
Magnification Screening Viewer-Printer. A copy of the bulletin  
is attached to this memorandum. It is a combination viewer  
and printer which seems to be a simplified approach to view-  
ing and recording certain photographic materials being exploited  
by the Geographic Branch/GMD.

2. It would be appreciated if more information could be  
obtained concerning this instrument. Specifically we would  
be interested in its cost, delivery schedule and applicability  
of certain modifications that PAG might want incorporated in  
the design.
